Temporary Connections

Inside the Agent Portal, you can request a temporary connection. Ideal for getting the power on to show a property to a potential purchaser or for a building and pest inspection.

Let Your Clients Know Who We Are

We find value in clients knowing who we are before we call them. As such, it would be great if you could add some information about our services in your emails to your clients. Here is some suggested wording you can incorporate into your existing messaging:

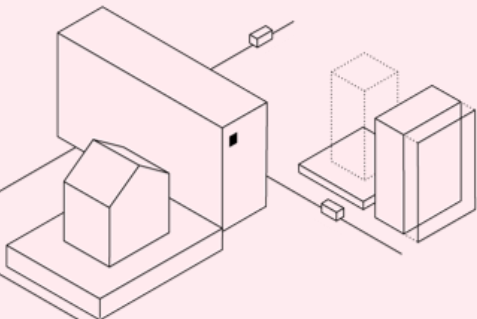

1. Purchasers: "As part of our ongoing commitment to your settlement journey, we've partnered with Move Me In's Concierge team. Look out for a text message granting you access to your very own Move In Service. We will be able to assist with Insurance through a dedicated Broker team who will assist you with Home and Contents Insurance and help you find some of the state's best energy and telco deals. Should you prefer to opt out, kindly notify our team and we'll promptly cancel the request. Wishing you all the best leading up to settlement day."

2. Vendors: "In line with our commitment to deliver continuous support, we're here to aid your move-out process. Simply [Click Here](#) to streamline your utilities for your new home."

Tips and Tricks with Move Me In

Customer Branded Switch and Save Page

We can help beyond your purchasers and vendors. Our services also assist in current residents getting better deals. This information can be placed in your website, on marketing or even sent in bulk emails.

This will seamlessly track back to your agency to reap the rewards in addition to providing another level of service you can offer to your valued clients and potential clients.

We'll send you a custom link you can use. If you provide a Google Tag Manager ID we can add that to the back end of our system.
